Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: We discussed 112 and 101 rejections with respect to claims 3,7,11, and 15. Using claim 7 as an example, Mr. Walters proposed overcoming the 112 rejections by just reciting "A processing platform implemented method, the method comprising..." in the preamble and moving the requesting an assertion step from the preamble to the body of the claim. Also, amendments were proposed to state that the assertions were between a name and a public key. The examiner agreed that this appeared to overcome the 112 rejection. As per the 101 rejections made in the last office action, Mr. Walter proposed adding a wherein clause to the claims rejected under 101 such that the claims stated that at least one of the recited components were hardware components. The examiner agreed that this would overcome the 101 rejections.
